

Next-Generation

Everest

2023MY

Ford

Are you ready to Everest?

More room, comfort and capability. Next-Gen Ford Everest is an SUV without compromise. Tough on the outside, a sanctuary on the inside, and ready for everything ahead of you and your family. You demanded it, we built it.

2.0L Bi-Turbo Diesel Power

A powerful new 2.0L Bi-Turbo Diesel engine headlines an exciting range of Diesel engines. Standard on Sport and Platinum models, the 2.0L Bi-Turbo delivers 154kW of power and 500Nm of torque.

Next-Gen power & capability

Next-Gen Everest features a choice of premium engines that deliver power and torque for towing, hauling and off-roading and come standard with Ford's efficient 10-speed automatic.

Ultimate towing experience

3500kg max towing capacity¹ is just the start. Next-Gen Everest is loaded with features and tech to help make towing easier and safer.

Selectable Drive Modes².

Next-Generation Everest gives you command of up to six on- and off-road drive modes to help master every terrain: Normal, Eco, Tow/Haul, Slippery, Mud/Ruts³, Sand³.

Driver Assistance

Active Park Assist 2.0⁴

Standard on Platinum only Active Park Assist 2.0 helps reduce the stress of parking by taking over the steering, shifting, braking and acceleration to navigate parallel or perpendicular parking spaces with ease. The system also includes Park Out Assist, which provides assistance when exiting a parallel parking spot.

Blind Spot Monitoring with Cross Traffic Alert and Trailer Coverage⁵

Helps you change lanes, alerts you when a vehicle enters the blind spot zone and will even resist the lane change if the driver misses the warning. Cross-Traffic Alert warns of traffic approaching from the sides when the vehicle is in reverse.

Evasive Steer Assist²

If Pre-collision Assist determines the distance is too short to brake in time to avoid a collision, your Everest will provide steering support (without steering for you) to help you avoid the obstacle.

Now with 9 Airbags

In a first for Everest, there are now 9 airbags available, including an airbag in between the front passengers, giving extra protection from side impacts.

Intelligent Adaptive Cruise Control with Stop & Go, Traffic Sign Recognition and Lane Centering⁶

This feature allows you to maintain a preset speed and distance from the vehicle ahead, with Traffic Sign Recognition automatically adjusting to the posted speed limit. If traffic slows in front of you, the vehicle will automatically slow down and come to a stop and then return to your set cruising speed once traffic clears. Plus, Lane Centering helps keep your vehicle centered in the lane.

The best thing to share is experience

You seek wild and untamed places with your loved ones. Only those who put in the effort will know the rewards.

Enough space for the biggest life

Next-Gen Everest is more spacious than ever, with more room and enough storage for every passenger.

Next-Gen Ford Everest Third Row Seating

Everest's third row is wider, with more leg room, improved seats and easier access. Overhead vents keep the air circulating and the rear passengers cool and comfortable. The cabin is quieter, so conversation can flow easily. Of course, side curtain airbags are standard.

Platinum Interior Shown

Next-Gen Ford Everest 7 seats. Space for family comfort

Everyone should be comfortable, no matter where they are sitting. Next-Gen Everest is more spacious than ever, with every passenger getting more room. On the Platinum model, the Panoramic Roof adds to the sense of openness and adventure.

Next-Gen Ford Everest handsfree power liftgate⁷

Hands full? Open the liftgate just by kicking your foot under the sensor. Next-Gen Everest's liftgate is wider for easier loading, opens and closes faster, and is designed to fully operate even with a conventional trailer attached.

Vehicle shown without standard Towbar

Wireless Connection⁹.

Connect to Apple CarPlay^{TM8} and Android Auto^{TM9} without a cable in sight. This cordless connection makes life easy and uncluttered.

Platinum Interior Shown

Connect anywhere¹².

Every Everest comes fitted with an embedded modem known as FordPass¹². Connect.

Once activated, using the FordPass App on your smartphone you can locate your vehicle, lock and unlock the doors, and even start the engine remotely.

Remote Start to heat or cool the cabin to last known setting.

Receive Health Alerts or check Vehicle Status.

Check your fuel levels remotely

Effortless interactivity

The Next-Gen Everest lets you experience a whole new world of connectivity, with wireless charging⁹, wireless connection⁸, and the SYNC[®] 4A¹⁰ infotainment system.

SYNC[®] 4A¹⁰.

An interactive in-vehicle communication and entertainment system with a host of features. Wireless smartphone integration, and a 12-inch touchscreen¹¹.

Wireless Charging Pad⁹.

Avoid the hassle of having to plug in your phone. Simply place it on the Everest's wireless charging pad and you're good to go.

Wireless Charging Pad⁹.

Service made easy

Vehicle shown without standard Towbar

Intelligent Oil Life Monitoring System (IOLM)

When you service at Ford with our factory trained technicians, your peace of mind is our top priority.

We use Genuine Ford Parts made for your vehicle (where possible) and provide you with a vehicle health report, so you know your vehicle is being maintained the way it should. Take advantage of all the Ford service benefits on offer.

Service Loan Car¹³.

So we can keep you on the road when you're getting your car serviced, you can take advantage of our Service Loan Car program.

Roadside Assistance¹⁴.

Enjoy Ford National Roadside Assistance with your vehicle purchase and after each General Service at a participating Ford Dealer.

The way you drive can have a significant impact on how often your oil needs changing.

The Intelligent Oil Life Monitoring System measures the performance of your vehicle's oil and alerts you in the instrument cluster or FordPass App¹² when the oil needs changing.

*Equinox Bronze only available on Platinum. ^Blue Lightning only available on Sport models.

1. Maximum towing capacity-braked using a Genuine Ford tow pack. To comply with these limits, occupants and / or luggage may need to be restricted to not exceed the GCM and GVM limits. For further details regarding passenger and luggage restrictions, please consult your authorised Ford Dealer and / or refer to the Owner's Manual.
2. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for details and limitations.
3. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for details and limitations. Mud/Ruts & Sand modes intended for off road use only.
4. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for details and limitations. Standard on Platinum only. Not available on other variants.
5. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. See Owner's Manual for details and limitations. Trailer Coverage system supports conventional trailer dimensions: up to 2.4m wide (measured at trailer front) and up to 10m long from the rear of your vehicle. Drivers will need to create a profile of their trailers in SYNC to support this system. Only works with a genuine factory fit Ford Tow Bar.
6. Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. Please see Owner's Manual for more information. iACC uses various data to adjust the set speed of the vehicle to the speed limit detected by the system. The iACC system will not always detect the correct speed limit and may set a vehicle speed that is above or below the actual speed limit. If the system does this, it can be overridden by the driver applying the brake or accelerator. ACC and Lane Centering has a minimum operating speed of 20km/hr. Detection of lower speed limit will result in system entering standby. The Stop and Go functionality of this system operates as low as 0km/hr in traffic jam situations. Customers should read the Owner's Manual for full details of the limitations of the iACC system before activating the system.
7. Standard on Sport and Platinum only.
8. Apple CarPlay™ / Android Auto™ requires phone with compatible version of Apple iOS / Android™ (as applicable), active data service, and connection cable (sold separately). SYNC® does not control Apple CarPlay / Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. Apple CarPlay, Siri Eyes Free, iPod and iPhone are trademarks of Apple Inc. registered in the US and other countries. Android Auto and Google Maps are trademarks of Google Inc. Ford Applink® is available on selected SYNC® models and is compatible with select smartphone platforms. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions.
9. Wireless Charging only available with compatible phones.
10. Not all SYNC 4A features are compatible with all phones.
11. 12-inch touchscreen on Trend, Sport & Platinum.
12. Use of FordPass is subject to the FordPass Terms and Privacy Policy available on ford.com.au/fordpass and requires a compatible mobile device, internet access and software (including software updates from time to time). You are responsible for internet access, mobile network data and voice call services required for your use of the FordPass App on your mobile device, including associated fees. The FordPass App and FordPass Connect modem can only work when both are connected to the telecommunications network. Ford cannot guarantee that FordPass will be in fully operating condition at all times and the FordPass App may be unavailable or particular FordPass services interrupted. Ford is not responsible for any limitations or restrictions of the telecommunications network or of your mobile device. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. Use Remote Vehicle Start and Stop responsibly and only in well ventilated areas where you are aware of your vehicle's surroundings.
13. Vehicle model availability may vary. Available to eligible customers at participating dealers on scheduled logbook service or overnight warranty repairs. Booking required. Participating Dealers may require customers to comply with general usage conditions.
14. Excludes vehicles being used for hire and reward (taxis, & rental vehicles, incl. camper vans). For eligible customers only at participating Dealers. Roadside Assistance provided with your scheduled logbook service for 12 months or until your next eligible scheduled service (whichever occurs first). Customers must comply with scheduled servicing intervals to maintain continuity of membership.

Our Commitment to You

Convenience. Reliability. And no nasty surprises. That's what service should be. And that's exactly what Ford promises when you have your car serviced. Feel at ease knowing that your car is being serviced by factory trained technicians using specialised diagnostic equipment. After all, nobody knows your Ford better than we do.
